

absl::inlined\_vector  
\_internal::Storage::MakeStorageView

```
graph LR; A["absl::inlined_vector  
_internal::Storage::MakeStorageView"] --> B["absl::inlined_vector  
_internal::Storage::GetInlinedCapacity"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'absl::inlined\_vector' on the first line and '\_internal::Storage::MakeStorageView' on the second line. The right box is gray with a black border and contains the text 'absl::inlined\_vector' on the first line, '\_internal::Storage::GetInlined' on the second line, and 'Capacity' on the third line.
