

absl::c\_prev\_permutation

```
graph LR; A[absl::c_prev_permutation] --> B[absl::container_algorithm_internal::c_begin]; A --> C[absl::container_algorithm_internal::c_end];
```

The diagram illustrates a function call. A gray box on the left contains the text 'absl::c\_prev\_permutation'. Two blue arrows originate from the right side of this box. The top arrow points to a white box containing 'absl::container\_algorithm\_internal::c\_begin'. The bottom arrow points to a white box containing 'absl::container\_algorithm\_internal::c\_end'.
