

OriginalStuff/abseil  
-cpp/absl/base/internal  
/inline\_variable.h

```
graph TD; A["OriginalStuff/abseil  
-cpp/absl/base/internal  
/inline_variable.h"] --> B["type_traits"]; A --> C["absl/base/internal  
/identity.h"]
```

The diagram illustrates a file path structure. At the top, a box contains the path 'OriginalStuff/abseil-cpp/absl/base/internal/inline\_variable.h'. Two blue arrows point from this box to two separate boxes below. The left box contains 'type\_traits' and the right box contains 'absl/base/internal/identity.h'.

type\_traits

absl/base/internal  
/identity.h
