

std::true\_type

The diagram illustrates the inheritance of the `std::true_type` trait from the `absl::node_hash_map` template. A light gray box at the bottom contains the full template signature, and two blue arrows point from its top edge to the `std::true_type` box above it.

```
absl::container_algorithm  
_internal::IsUnorderedContainer  
< absl::node_hash_map< Key,  
  T, Hash, KeyEqual, Allocator > >
```
