

absl::DumpNode

```
graph LR; A[absl::DumpNode] --> B[absl::CEscape]
```

A diagram showing a call from `absl::DumpNode` to `absl::CEscape`. The `absl::DumpNode` box is shaded gray, and the `absl::CEscape` box is white. A blue arrow points from the right side of the `absl::DumpNode` box to the left side of the `absl::CEscape` box.

absl::CEscape
