```
graph LR; A[Eigen::SkylineMatrix::operator=] --> D[Eigen::SkylineMatrix::resize]; B[Eigen::SkylineMatrix::SkylineMatrix] --> D; C[Eigen::SkylineMatrix::SkylineMatrix] --> D;
```

The diagram illustrates a dependency or inheritance relationship. On the left, three white rectangular boxes are stacked vertically. Each box contains the text 'Eigen::SkylineMatrix' followed by a function or constructor name on a new line. Blue arrows originate from the right side of each of these three boxes and point towards a single, larger grey rectangular box on the right. This grey box also contains the text 'Eigen::SkylineMatrix' followed by a function or constructor name on a new line. The arrows indicate that the three functions on the left are related to or depend on the function in the grey box.
