

absl::synchronization
_internal::PrintTransitiveClosure

```
graph LR; A["absl::synchronization  
_internal::PrintTransitiveClosure"] --> B["absl::synchronization  
_internal::IsReachable"]; B --> B;
```

The diagram consists of two rectangular boxes. The left box is gray and contains the text 'absl::synchronization' followed by '_internal::PrintTransitiveClosure' on the next line. A straight blue arrow points from the right side of this box to the left side of the right box. The right box is white with a black border and contains the text 'absl::synchronization' followed by '_internal::IsReachable' on the next line. A curved blue arrow starts from the top of the right box and points back to the top of the same box, indicating a self-call.
