

absl::UnsampledCord

```
graph LR; A[absl::UnsampledCord] --> B[absl::GetCordzInfoForTesting]
```

A diagram showing a relationship between two classes. On the left is a gray rectangular box containing the text 'absl::UnsampledCord'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'absl::GetCordzInfoForTesting'.

absl::GetCordzInfoForTesting
