

absl::container_internal
::FlatHashSetPolicy::destroy

```
graph LR; A["absl::container_internal::FlatHashSetPolicy::destroy"] --> B["absl::container_internal::IsDestructionTrivial"]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'absl::container_internal::FlatHashSetPolicy::destroy'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'absl::container_internal::IsDestructionTrivial'. A blue curved arrow originates from the top of the white box and points back to the top of the same box, representing a self-call or a recursive dependency.

absl::container_internal
::IsDestructionTrivial
