

Eigen::SuperLU::SuperLU

Eigen::SuperLU::SuperLU

Eigen::SuperLU::init

```
graph LR; A[Eigen::SuperLU::SuperLU] --> C[Eigen::SuperLU::init]; B[Eigen::SuperLU::SuperLU] --> C;
```

The diagram illustrates a dependency or initialization flow. On the left, there are two identical white rectangular boxes, each containing the text 'Eigen::SuperLU::SuperLU'. On the right, there is a single gray rectangular box containing the text 'Eigen::SuperLU::init'. Two blue arrows originate from the right side of the top white box and the right side of the bottom white box, both pointing towards the left side of the gray box. This suggests that the 'Eigen::SuperLU::init' function is called or initialized by the 'Eigen::SuperLU::SuperLU' class or function.
