

```
Eigen::GenericNumTraits  
< std::complex< _Real > >
```

The diagram illustrates the relationship between two Eigen traits classes. A light gray box at the top contains the text 'Eigen::GenericNumTraits < std::complex< _Real > >'. A darker gray box at the bottom contains the text 'Eigen::NumTraits< std::complex< _Real > >'. Two blue arrows point upwards from the bottom box to the top box, indicating that the bottom class inherits from or specializes the top class.

```
Eigen::NumTraits< std  
::complex< _Real > >
```
