

Eigen::Spline::derivatives

Eigen::Spline::derivatives

Eigen::derivativesImpl

```
graph LR; A[Eigen::Spline::derivatives] --> C[Eigen::derivativesImpl]; B[Eigen::Spline::derivatives] --> C;
```

The diagram illustrates a relationship between two source boxes and a target box. On the left, there are two identical white rectangular boxes, each containing the text 'Eigen::Spline::derivatives'. On the right, there is a single gray rectangular box containing the text 'Eigen::derivativesImpl'. Two blue arrows originate from the right side of the top white box and the right side of the bottom white box, both pointing towards the left side of the gray box. This visualizes that the 'Eigen::Spline::derivatives' entity is implemented by or points to 'Eigen::derivativesImpl'.
