

OriginalStuff/abseil
-cpp/absl/debugging/internal
/demangle_rust.h

```
graph TD; A["OriginalStuff/abseil  
-cpp/absl/debugging/internal  
/demangle_rust.h"] --> B["cstddef"]; A --> C["absl/base/config.h"]
```

The diagram illustrates a file path structure. A top box contains the path 'OriginalStuff/abseil-cpp/absl/debugging/internal/demangle_rust.h'. Two blue arrows point from this box to two separate bottom boxes. The left arrow points to a box containing 'cstddef', and the right arrow points to a box containing 'absl/base/config.h'.

cstddef

absl/base/config.h
