

```
Eigen::NumTraits< std  
::complex< _Real > >  
::dummy_precision
```

A diagram illustrating a mapping between two Eigen NumTraits specializations. On the left, a gray rectangular box contains the text 'Eigen::NumTraits< std::complex< \_Real > >::dummy\_precision'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Eigen::GenericNumTraits::dummy\_precision'.

```
Eigen::GenericNumTraits  
::dummy_precision
```
