

Eigen::KdBVH::KdBVH

```
graph LR; A[Eigen::KdBVH::KdBVH] --> B[Eigen::KdBVH::init]; B --> B;
```

The diagram illustrates a self-call to the `init` function. A grey box on the left contains the text `Eigen::KdBVH::KdBVH`. A straight blue arrow points from this box to a white box on the right containing `Eigen::KdBVH::init`. A curved blue arrow originates from the top of the white box and points back to itself, representing a recursive or self-call.

Eigen::KdBVH::init
