

Eigen::half_impl::operator!=

```
graph LR; A[Eigen::half_impl::operator!=] --> B[Eigen::numext::not_equal_strict]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'Eigen::half_impl::operator!='. A straight blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Eigen::numext::not_equal_strict'. A curved blue arrow originates from the top of the white box and points back to its top, indicating a self-call or a loop.

Eigen::numext::not
_equal_strict
