

absl::container_internal
::btree::internal_find

```
graph LR; A["absl::container_internal::btree::internal_find"] --> B["absl::container_internal::SearchResult::HasMatch"]; A --> C["absl::container_internal::SearchResult::IsEq"]
```

The diagram illustrates a function call sequence. A central box on the left, labeled 'absl::container_internal::btree::internal_find', has two blue arrows pointing to the right. The top arrow points to a box labeled 'absl::container_internal::SearchResult::HasMatch', and the bottom arrow points to a box labeled 'absl::container_internal::SearchResult::IsEq'.
