

absl::c_contains_subrange

absl::c_contains_subrange

absl::c_search

```
graph LR; A[absl::c_contains_subrange] --> C[absl::c_search]; B[absl::c_contains_subrange] --> C;
```

The diagram illustrates a relationship between two functions. On the left, there are two identical white rectangular boxes, each containing the text 'absl::c_contains_subrange'. On the right, there is a single gray rectangular box containing the text 'absl::c_search'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'absl::c_contains_subrange' functions are associated with or point to 'absl::c_search'.
