

Eigen::DenseBase::maxCoeff

Eigen::DenseBase::maxCoeff

Eigen::DenseBase::maxCoeff

Eigen::DenseBase::maxCoeff

```
graph LR; A[Eigen::DenseBase::maxCoeff] --> D[Eigen::DenseBase::maxCoeff]; B[Eigen::DenseBase::maxCoeff] --> D; C[Eigen::DenseBase::maxCoeff] --> D;
```

The diagram illustrates a merge or consolidation process. On the left, there are three separate boxes, each containing the text 'Eigen::DenseBase::maxCoeff'. Blue arrows originate from the right side of each of these three boxes and point towards a single, larger box on the right. This target box also contains the text 'Eigen::DenseBase::maxCoeff' and is shaded gray, distinguishing it from the source boxes. The arrows indicate a flow or mapping from the three individual sources to the single consolidated target.
