

absl::log\_internal  
::EncodeBytesTruncate

```
graph LR; A["absl::log_internal::EncodeBytesTruncate"] --> B["absl::log_internal::VarintSize"]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'absl::log\_internal::EncodeBytesTruncate'. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text 'absl::log\_internal::VarintSize'. A blue curved arrow originates from the top of the white box and points back to the top of the same box, indicating a self-call or a recursive step.

absl::log\_internal  
::VarintSize
