

Eigen::SparseQR::SparseQR

```
graph LR; A[Eigen::SparseQR::SparseQR] --> B[Eigen::SparseQR::compute]; B --> C[Eigen::SparseQR::factorize];
```

The diagram illustrates a sequence of three Eigen::SparseQR methods. The first method, 'Eigen::SparseQR::SparseQR', is shown in a white box. A blue arrow points from it to the second method, 'Eigen::SparseQR::compute', which is also in a white box. Another blue arrow points from the second method to the third method, 'Eigen::SparseQR::factorize', which is shown in a gray box. This visual representation suggests a workflow or dependency between these methods.

Eigen::SparseQR::compute

Eigen::SparseQR::factorize
