

Eigen::DenseBase::operator=

```
graph LR; A[Eigen::DenseBase::operator=] --> B[Eigen::internal::call_assignment]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'Eigen::DenseBase::operator='. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Eigen::internal::call_assignment' on two lines. A blue curved arrow originates from the top edge of the white box and points back to its top edge, indicating a self-call or a loop.
