

absl::uniform_real
_distribution::min

```
graph LR; A["absl::uniform_real_distribution::min"] --> B["absl::uniform_real_distribution::a"]; B --> C["absl::uniform_real_distribution::param_type::a"]
```

The diagram consists of three rectangular boxes arranged horizontally, connected by blue arrows pointing from left to right. The first box on the left has a gray background and contains the text 'absl::uniform_real_distribution::min'. The middle box has a white background and contains 'absl::uniform_real_distribution::a'. The third box on the right also has a white background and contains 'absl::uniform_real_distribution::param_type::a'.
