

Eigen::internal::scalar  
\_cosh\_op::operator()

```
graph LR; A["Eigen::internal::scalar_cosh_op::operator()"] --> B["Eigen::numext::cosh"]; B --> C["cosh"]
```

The diagram illustrates the resolution of the `cosh` operator in Eigen. It starts with a grey box containing `Eigen::internal::scalar_cosh_op::operator()`, which points via a blue arrow to a white box containing `Eigen::numext::cosh`. This box then points via another blue arrow to a final white box containing `cosh`.

Eigen::numext::cosh
