

tensor/build/_deps
/absl-src/absl/container
/internal/hash_policy_testing
_test.cc

```
graph TD; A["tensor/build/_deps<br>/absl-src/absl/container<br>/internal/hash_policy_testing<br>_test.cc"] --> B["absl/container/internal<br>/hash_policy_testing.h"]; A --> C["gtest/gtest.h"];
```

A diagram showing a source file at the top with two arrows pointing down to its dependencies. The source file is located in a directory structure under tensor/build/_deps, specifically within the absl-src/absl/container/internal subdirectory, and is named hash_policy_testing_test.cc. The two dependencies are the header file hash_policy_testing.h located in the absl/container/internal directory, and the gtest/gtest.h header file.

absl/container/internal
/hash_policy_testing.h

gtest/gtest.h
