

```
Eigen::SparseMapBase  
< Derived, ReadOnlyAccessors  
>::coeff
```

```
graph LR; A["Eigen::SparseMapBase< Derived, ReadOnlyAccessors >::coeff"] --> B["col"]; A --> C["row"];
```

The diagram illustrates the relationship between the `Eigen::SparseMapBase` class template and its associated row and column accessors. A central gray box contains the text `Eigen::SparseMapBase`, `< Derived, ReadOnlyAccessors`, and `>::coeff`. Two blue arrows point from the right side of this box to two separate white boxes. The top arrow points to a box labeled `col`, and the bottom arrow points to a box labeled `row`.
