

Eigen::SparseMatrix
::operator=

Eigen::SparseMatrix
::SparseMatrix

Eigen::SparseMatrix
::initAssignment

```
graph LR; A[Eigen::SparseMatrix::operator=] --> C[Eigen::SparseMatrix::initAssignment]; B[Eigen::SparseMatrix::SparseMatrix] --> C;
```

The diagram illustrates a relationship between three functions in the Eigen library. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Eigen::SparseMatrix::operator=' and the bottom box contains 'Eigen::SparseMatrix::SparseMatrix'. On the right, a gray rectangular box contains the text 'Eigen::SparseMatrix::initAssignment'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both 'operator=' and 'SparseMatrix' functions call or utilize 'initAssignment'.
