

Eigen::internal::constrained_cg

Eigen::IterationController
::finished

Eigen::IterationController
::finished

```
graph LR; A[Eigen::internal::constrained_cg] --> C[Eigen::IterationController::finished]; B[Eigen::IterationController::finished] --> C;
```

The diagram illustrates a flow or relationship between three components. On the left, there are two separate boxes. The top box contains the text 'Eigen::internal::constrained_cg'. The bottom box contains the text 'Eigen::IterationController' followed by '::finished' on a new line. On the right, there is a single, larger box that also contains the text 'Eigen::IterationController' followed by '::finished' on a new line. Two blue arrows originate from the right side of the two boxes on the left and point towards the left side of the box on the right, indicating that both components on the left lead to or result in the state shown on the right.
