

Eigen::internal::TensorContraction
SubMapper::loadPacket

```
graph LR; A["Eigen::internal::TensorContraction  
SubMapper::loadPacket"] --> B["Eigen::internal::TensorContraction  
SubMapper::loadPacket"]; B --> B;
```

The diagram consists of two rectangular boxes. The left box is filled with a dark gray color and contains the text 'Eigen::internal::TensorContraction' on the top line and 'SubMapper::loadPacket' on the bottom line. A straight blue arrow points from the right side of this box to the left side of the right box. The right box is white with a black border and contains the same text: 'Eigen::internal::TensorContraction' on the top line and 'SubMapper::loadPacket' on the bottom line. A curved blue arrow starts from the top of the right box and points back to the top of the same box, indicating a self-call or a loop.
