Eigen::internal::complex
_schur_reduce_to_hessenberg
< MatrixType, false >::run

Eigen::HessenbergDecomposition
::matrixQ

```
graph LR; A["Eigen::internal::complex<br>_schur_reduce_to_hessenberg::run"] --> C["Eigen::HessenbergDecomposition<br>::matrixQ"]; B["Eigen::internal::complex<br>_schur_reduce_to_hessenberg<br>< MatrixType, false >::run"] --> C;
```

The diagram illustrates a dependency or data flow. Two function calls, one from the top-left and one from the bottom-left, both point via blue arrows to a single target box on the right. The target box is shaded gray and represents the matrix Q of the Hessenberg decomposition.
