

Eigen::internal::ptranpose

Eigen::internal::ptranpose

Eigen::internal::ptranpose
_common

```
graph LR; A[Eigen::internal::ptranpose] --> C[Eigen::internal::ptranpose_common]; B[Eigen::internal::ptranpose] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, there are two separate boxes, each containing the text 'Eigen::internal::ptranpose'. Blue arrows point from the right side of each of these boxes to a single, larger box on the right. This box on the right is shaded gray and contains the text 'Eigen::internal::ptranpose' followed by a new line and the text '_common'. This suggests that the two separate components on the left are being consolidated or mapped to a single common component on the right.
