

absl::SimpleHexAtoi

```
graph LR; A[absl::SimpleHexAtoi] --> B[absl::numbers_internal::safe_strto128_base]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'absl::SimpleHexAtoi'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'absl::numbers_internal::safe_strto128_base'.

absl::numbers_internal
::safe_strto128_base
