

absl::profiling_internal
::PeriodicSamplerBase::Sample

```
graph LR; A["absl::profiling_internal  
::PeriodicSamplerBase::Sample"] --> B["absl::profiling_internal  
::PeriodicSamplerBase::  
SubtleMaybeSample"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'absl::profiling_internal' followed by '::PeriodicSamplerBase::Sample' on the next line. The right box is gray with a black border and contains the text 'absl::profiling_internal' followed by '::PeriodicSamplerBase::' on the next line, and 'SubtleMaybeSample' on the third line.
