

Eigen::PastixLU::PastixLU

Eigen::PastixLU::PastixLU

Eigen::PastixLU::init

```
graph LR; A[Eigen::PastixLU::PastixLU] --> C[Eigen::PastixLU::init]; B[Eigen::PastixLU::PastixLU] --> C;
```

The diagram illustrates a relationship between two constructors and an initialization function. On the left, there are two identical boxes, each containing the text 'Eigen::PastixLU::PastixLU'. On the right, there is a single box containing the text 'Eigen::PastixLU::init'. Two blue arrows originate from the right side of each 'Eigen::PastixLU::PastixLU' box and point towards the 'Eigen::PastixLU::init' box, indicating that both constructors call this initialization function.
