

Eigen::IterScaling
::compute

```
graph LR; A["Eigen::IterScaling  
::compute"] --> B["abs"]
```

The diagram consists of two rectangular boxes connected by a blue arrow. The left box is gray with a black border and contains the text 'Eigen::IterScaling' on the top line and '::compute' on the bottom line. A blue arrow points from the right side of this box to the left side of a second box. The second box is white with a black border and contains the text 'abs'.
