

```
absl::compare_internal  
::strong_ordering_base  
< strong_ordering >
```

The diagram illustrates a relationship between two C++ classes. At the bottom is a gray box containing the text 'absl::strong_ordering'. Two blue arrows originate from the top of this box and point upwards to the bottom of a white box with a black border. The white box contains the text 'absl::compare_internal::strong_ordering_base < strong_ordering >'. This visualizes that 'absl::strong_ordering' is a specialization or derived class of the template 'absl::compare_internal::strong_ordering_base'.

```
absl::strong_ordering
```
