

absl::c\_max\_element

```
graph LR; A[absl::c_max_element] --> B["absl::container_algorithm<br>_internal::c_begin"]; A --> C["absl::container_algorithm<br>_internal::c_end"]
```

The diagram illustrates a function call. A gray box on the left contains the text 'absl::c\_max\_element'. Two blue arrows originate from its right side and point to two white boxes on the right. The top white box contains the text 'absl::container\_algorithm' followed by '\_internal::c\_begin' on a new line. The bottom white box contains the text 'absl::container\_algorithm' followed by '\_internal::c\_end' on a new line.

absl::container\_algorithm  
\_internal::c\_begin

absl::container\_algorithm  
\_internal::c\_end
