

absl::log\_internal  
::RegisterAndInitialize

```
graph LR; A[absl::log_internal::RegisterAndInitialize] --> B[absl::log_internal::VLogLevel]; B --> B;
```

The diagram consists of two rectangular boxes. The left box is gray and contains the text 'absl::log\_internal::RegisterAndInitialize'. A straight blue arrow points from the right side of this box to the left side of the right box. The right box is white and contains the text 'absl::log\_internal::VLogLevel'. A curved blue arrow starts from the top of the right box and points back to the top of the same box, indicating a self-call or a loop.

absl::log\_internal  
::VLogLevel
