

Eigen::KLU::_solve_impl

```
graph LR; A[Eigen::KLU::_solve_impl] --> B[Eigen::klu_solve]; B --> B;
```

The diagram illustrates a function call. A light blue box on the left, labeled 'Eigen::KLU::_solve_impl', has a straight blue arrow pointing to a dark gray box on the right, labeled 'Eigen::klu_solve'. The dark gray box also features a curved blue self-loop arrow above it, indicating a recursive or iterative call to itself.

Eigen::klu_solve
