

```
absl::str_format_internal  
::FormatConversionSpecImpl  
::has_show_pos_flag
```

A diagram illustrating a function call. A grey rectangular box on the left contains the code `absl::str_format_internal::FormatConversionSpecImpl::has_show_pos_flag`. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the code `absl::str_format_internal::FlagsContains`.

```
absl::str_format_internal  
::FlagsContains
```
