

absl::c_move_backward

```
graph LR; A[absl::c_move_backward] --> B[absl::container_algorithm_internal::c_begin]; A --> C[absl::container_algorithm_internal::c_end];
```

The diagram illustrates a function call. A grey box on the left contains the text 'absl::c_move_backward'. Two blue arrows originate from the right side of this box. The top arrow points to a white box containing 'absl::container_algorithm_internal::c_begin'. The bottom arrow points to a white box containing 'absl::container_algorithm_internal::c_end'.
