Eigen::AMDOrdering
::operator()

Eigen::internal::minimum
_degree_ordering

```
graph LR; A[Eigen::AMDOrdering::operator()] --> C[Eigen::internal::minimum_degree_ordering]; B[Eigen::AMDOrdering::operator()] --> C;
```

The diagram illustrates a call resolution process. On the left, there are two identical boxes, each containing the text 'Eigen::AMDOrdering::operator()'. Blue arrows point from the right side of each box to a single box on the right. This box is shaded gray and contains the text 'Eigen::internal::minimum_degree_ordering'.
