

Eigen::internal::array_prod

Eigen::internal::array_sum

Eigen::internal::array_reduce

```
graph LR; A[Eigen::internal::array_prod] --> C[Eigen::internal::array_reduce]; B[Eigen::internal::array_sum] --> C;
```

The diagram illustrates a relationship between three Eigen internal functions. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Eigen::internal::array_prod' and the bottom box contains 'Eigen::internal::array_sum'. On the right, a gray rectangular box contains the text 'Eigen::internal::array_reduce'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'array_prod' and 'array_sum' are related to or implemented using 'array_reduce'.
