

Eigen::internal::Compressed
Storage::at

```
graph LR; A[Eigen::internal::CompressedStorage::at] --> B[Eigen::internal::CompressedStorage::searchLowerIndex]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'Eigen::internal::CompressedStorage::at'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Eigen::internal::CompressedStorage::searchLowerIndex'. A blue curved arrow originates from the top of the white box and points back to the top of the same box, representing a self-call or a recursive step.
