

abseil-cpp/absl/strings
/internal/cordz_update
_tracker.h

```
graph TD; A["abseil-cpp/absl/strings<br>/internal/cordz_update<br>_tracker.h"] --> B["atomic"]; A --> C["cstdint"]; A --> D["absl/base/config.h"]
```

This diagram illustrates the header file dependencies for `abseil-cpp/absl/strings/internal/cordz_update_tracker.h`. Three blue arrows point from the top box to the bottom boxes, indicating that the top header file includes the three files listed below.

atomic

cstdint

absl/base/config.h
