

tensor/build/_deps
/absl-src/absl/strings
/internal/pow10_helper.h

```
graph TD; A["tensor/build/_deps<br>/absl-src/absl/strings<br>/internal/pow10_helper.h"] --> B["vector"]; A --> C["absl/base/config.h"]
```

The diagram illustrates a dependency relationship. A top box contains the file path 'tensor/build/_deps /absl-src/absl/strings /internal/pow10_helper.h'. Two blue arrows point from this box to two bottom boxes: 'vector' on the left and 'absl/base/config.h' on the right.

vector

absl/base/config.h
