

absl::flags_internal
::FlagImpl::AssertValidType

absl::flags_internal
::FlagImpl::Write

absl::flags_internal
::FastTypeId

```
graph LR; A["absl::flags_internal::FlagImpl::AssertValidType"] --> C["absl::flags_internal::FastTypeId"]; B["absl::flags_internal::FlagImpl::Write"] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, 'absl::flags_internal::FlagImpl::AssertValidType' and 'absl::flags_internal::FlagImpl::Write', are shown in white boxes on the left. Two blue arrows point from these source functions to a target function, 'absl::flags_internal::FastTypeId', which is shown in a gray box on the right.
