

tensor/build/_deps
/absl-src/absl/types
/bad_optional_access.h

```
graph TD; A["tensor/build/_deps<br>/absl-src/absl/types<br>/bad_optional_access.h"] --> B["stdexcept"]; A --> C["absl/base/config.h"]
```

The diagram illustrates a dependency relationship. A top box contains the file path 'tensor/build/_deps /absl-src/absl/types /bad_optional_access.h'. Two blue arrows point from this box to two bottom boxes: 'stdexcept' on the left and 'absl/base/config.h' on the right.

stdexcept

absl/base/config.h
