Eigen::internal::pconj

Eigen::internal::Packet2cf
::conjugate

```
graph LR; A[Eigen::internal::Packet2cf::operator/=] --> D[Eigen::internal::Packet2cf::conjugate]; B[Eigen::internal::pconj] --> D; C[Eigen::internal::pconj] --> D;
```

The diagram illustrates a dependency or inheritance relationship. Three source functions on the left are connected by blue arrows to a single target function on the right. The target function, 'Eigen::internal::Packet2cf::conjugate', is highlighted with a gray background, while the source functions have white backgrounds. The arrows originate from the bottom-right of the first box, the right side of the second box, and the top-right of the third box, all pointing towards the left side of the target box.
