

Eigen::Transform::Transform

```
graph LR; A[Eigen::Transform::Transform] --> B[Eigen::Transform::check_template_params]; A --> C[Eigen::EigenBase::derived];
```

The diagram illustrates a function call sequence. A central box labeled 'Eigen::Transform::Transform' has two outgoing blue arrows. The top arrow points to a box labeled 'Eigen::Transform::check_template_params', and the bottom arrow points to a box labeled 'Eigen::EigenBase::derived'.

Eigen::Transform::check
_template_params

Eigen::EigenBase::derived
